

INTELLIBATCH BASIC

Reports Package – Product Features

Looking for reporting beyond batch tickets? You're covered with the Reports Package for IntelliBatch Basic. This package provides the typical reports you need conveniently pre-installed on a mini desktop computer with monitor, keyboard, and mouse. The included Ethernet connectivity allows plant-wide reports visibility.

AVAILABLE REPORTS AND FEATURES:

- Batch History
- Daily Batching
- Material Usage
- Material Variance
- Production Report
- QC Data Entry
- Data Import Function
- USB Memory Stick Interface
